RESOLUTION

Supporting the goals and ideals of “National Girls and Women in Sports Day”.

Whereas since 1987, the National Girls and Women in Sports Coalition has declared February 4 as “National Girls and Women in Sports Day”;

Whereas the House of Representatives has recognized the importance of girls and women in sports through title IX,

which governs the overall equity of treatment and opportunity in athletics so that women have equal opportunities to participate in athletics;

Whereas the number of girls playing high school sports has increased from just under 300,000 during the 1971 to 1972 school year to nearly 3,000,000 during the 2005 to 2006 school year;

Whereas the number of women playing college sports grew from fewer than 32,000 in 1972 to nearly 171,000 from 2005 to 2006;

Whereas, despite great advancement, high school girls still receive 1,300,000 fewer participation opportunities than do boys, and the money spent on girls' sports is still far less than that spent on boys' sports;

Whereas high school girls who play sports are more likely to get better grades in school and are more likely to graduate than girls who do not play sports;

Whereas as little as 4 hours of exercise a week may reduce a girl's risk of breast cancer, osteoporosis, and obesity;

Whereas girls and women who play sports have a more positive body image, higher levels of confidence and self-esteem, and experience higher states of psychological well-being than girls and women who do not play sports;

Whereas the celebration of "National Girls and Women in Sports Day" would increase awareness of the importance sports play in the lives of girls and women in the United States; and

Whereas February 4, 2009, has been designated as "National Girls and Women in Sports Day" by the National Girls and Women in Sports Coalition: Now, therefore, be it
